**I love it !!**

My first ever front loader and was a little concerned. But I have zero regrets. So many functions and settings for every cycle you could need. Love there is a quick 15 minute cycle to just freshen up a few items.

Variable temperatures and spin speed make it easy to set up the perfect wash.

First self heating machine ( I know how sad am I). Nice that it uses loads less water than a toploader. You don't have to think too much about the cost of running it.

Totally convinced I get a much better wash, not needing to use as much presoaking or stain remover on my clothing. Socks come out perfectly clean with no extra effort.

I am buying the Haier Drier next !

**Excellent value-for-money machine**

An economical front loader (more affordable than many other brand names) that delivers a great result every time. Extremely quiet when operating, even on the spin cycles. There are multiple wash cycle options with ability to change wash temperature and spin speeds. It has an inbuilt water heater so there is not need to hook up to a hot tap. I loved the hygiene cycle as it washes very dirty clothing loads and the items come out as if brand new. We couldn't be happier having purchased this machine.

**Happy customer of a fridge and washing machine**

Ease of Use

Performance

Value for Money

Washing machine is very good. Though was initially skeptical about how will it be as this is my frist time buyinf haeir product, I have chosen fridge and washing machine. Its been almost 9 months since and I do not regret buying them. Haeir of today is probably not what it was few years ago when people said it was poor quality. I am happy with my purchase and would recommend the brand.

Great selection of washes

Bought this about a month ago, wasn't looking for anything super flash so went with this one as it seemed good value for money!

We previously had a whirlpool which we were happy with, however this one has exceeded that ten fold. I love the range of choices it gives you for a wash.

We are a house of four very active people so really enjoy the quick wash choices especially for sport. I've also found this is cleaning my clothes a lot better than the previous washer, haven't changed my detergents but somehow they come out smelling a lot fresher!

Overall very very happy with this purchase

Amazing!!!

We needed a washing machine urgently so Bing Lee was able to accolade accolade easily. They took away out old machine and installed the new one. This process was so easy as it was a next day delivery. As soon as we got the washing machine, we loved it. It washes well and the clothes come out fresh and smelling lovely. It is not too loud and the best thing is that it uses a cold water hose only and you can select the temperature of your choice on the washer. It was a no hassle purchase and 1000% would buy from Bing Lee again. During this tough covid time, they were supportive and provided fast and easy service. Life savers!!! We also have a haier fridge and we cannot be happier with these products.

A mixed bag

Good simple machine. I was worried about the noise initially - it was as if something needed to grind down and bed in a bit. The cycles are what you would expect, but I would have liked (and need) a dedicated rinse cycle. I have a stock of soap that I have to use up, which seems to suds too much, even though it says it is OK for front loaders, and I frequently need additional rinses. I would like to be able to add them at the end when I know there are too many suds, rather than preempt them when I select the cycle and can add additional rinses to the chosen cycle. It means I am sometimes adding rinses I don't actually need. Overall, happy given it is the lowest priced front loader on the market.

Really happy with our purchase, the machine was affordable and does a great job in washing clothes. If there is one thing I could change it would maybe be the size, I find I can't wash all my king sheets and mattress protector in the same wash but other than that it's a great machine!

Great front loader

Easy to use and work out, pretty quiet, i like the quick loads and still cleans just as well
